

COAT CARE

Luxurious finishing touch

STAR SHINE

Cavalor® Star Shine is a long-lasting hair conditioner with a unique and pleasant aroma. Cavalor® Star Shine gives your horse's coat a brilliant gloss, adds volume to the hair and keeps mane and tail tangle-free for up to a week.

Make your star shine

Cavalor® Star Shine contains a mixture of **high quality silicones**. Yes, we do use silicones, because we are convinced that the use of **high quality silicones** is essential for an excellent detangler. Many cheaper products use low quality silicones which can damage the hair. Using Cavalor® Star Shine **prevents coat stains** because of the dust and dirt repelling properties. Every hair strand will be coated with a **protective layer** to prevent tangling of the mane and tail. This protective layer prevents excessive pulling and reduces breakage. Cavalor® Star Shine helps **repair damaged hair** while **enhancing coat color and structure** with an unforgettable shine.

Next to the high-quality ingredients, we make sure Cavalor® Star Shine is also **pH neutral**.

The gentle formula will keep the coat, mane and tail hydrated which results in more volume and elasticity, anti-static hair and a healthy and well-kept impression.

PRODUCT FOR EXTERNAL HORSE CARE

Description

White liquid

Directions of use

Preferably immediately following a bath, spray Cavalor® Star Shine on your horse's wet mane, tail and coat. For best results, rub down the horse's coat with a wool or cotton cloth afterwards

Caution: for external use only

Packaging & storage

500 ml / 16.9 fl. oz. spray

2000 ml / 67.6 fl. oz. spoutbag
